“ *Dearest David,
I almost made it to Bodega Bay last week. So many changes on the way that I ended up at Point Reyes. It's the thought...*

Nine years today since you left us. Many feelings run their courses through my mind and heart. We were both angry at the end not to have more time for one more road trip, retirement together, and better health outcomes.

If nothing else, I hope that G-D has answered all of your questions. Now you have all the rest of eternity to take in the knowledge you craved for nearly every day of your life here in this universe. May your spirit be at peace.

*Love always,
Narda*

“ *David, can't believe it's been eight years since your death. With the pandemic surges and different mandates changing, many of us have lost a sense of time. The weeks pass swiftly. Received call from Jonathan Linden last week and Brian and I text at the various holidays. We couldn't believe how long ago we talked.*

Chris sends e-cards at Christmas. I've called some of your brothers and sisters, even this year, but nothing other than a mass e-mail on occasion. Sad... Sarai reads about them on Face Book. Maybe they will read this?

Thank goodness that we did have 40 years together. And maybe I can go back to the coast this year, visit our favorite places. Couldn't face it in past. Still and always will love

*you! Josh and Sarai do, too.

“ Dearest David,
Thankful that you didn't have to live through this past year. Between the government turmoil and the Covid-19 pandemic, these have been scary times. I've been remembering how you kept a pocket-size copy of the U.S. Constitution with you at AHS. I still have it on the bookcase on my side of our bedroom. I'm so glad and appreciative of how you informed your students to take time to read it, learn about the underpinnings of our country. And how it's meant to be adhered to by members of our government at every level with new amendments added when bipartisanship allows for them.
Freedom, honesty, respect, accepting and taking responsibility, seeking equality and equity, justice for all here in this USA. We almost lost all of the aforementioned and so much more. G-d willing that we continue to strive to be that nation, to live by the greatest Constitution for a true republic and democracy. Watch over us and may we be a good and righteous people. "A light unto the nations..."

“ It has been five years since David died. It still feels as if he left us a few weeks ago. I tell him I love him every day and regret we didn't have many more years together here in Napa. He never had the opportunity to enjoy retirement, make more memories, and see our children grow into remarkable, humane, and purposeful people. They affirm life and doing their parts toward "tikun olam." Joshua and Sarai often talk about how he inspired them, positively influenced their lives. What a legacy he has left...and they, along with his extended family members, students, colleagues, and others who were fortunate to have spent time with him, do him proud.

May all of David's questions, yearning for knowledge, be answered and satisfied. And to his teachers and others who were skeptical about his capabilities, it was always a matter of thinking, analyzing data/facts, and seeing outside the box.

Often he was ridiculed, misunderstood, his genius denied. Many times, years in advance, he foretold theories on a variety of subjects, which later were proven to be accurate and insightful.

Who else do you know who was left back to repeat first grade based upon his supposed "immaturity" as exemplified by painting a mass of black lines on white paper? If they had asked, he would have explained it was spaghetti but you couldn't see it if he'd used white paint. And he was happy when sent out of his classroom to spend time with the Jesuit priests, known for their intellectual and inquisitive acumen.

I love you, David. I miss you so much. See you later in the great beyond.

It is Spring, a time for new beginnings. I couldn't resist taking pictures of the clouds today, an addiction shared with my father in times gone by. He always looked beyond-- beyond himself, beyond the sky, beyond tomorrow (or yesterday, depending on one's perspective)-- and some took his seeming absence as an affront, but that man was the most grounded and connected person I have ever met. It is a strange thing to be grown and still feel a child, intrigued by and expectant of each dawn's new glimmer on the horizon, lost in wonder. As I begin my 45th year, I remember my father. When we meet again I have so much to tell you.

“ *Mr. Judge was one of the best inspirations in my life. I'm just incredibly heart broken. This man changed my life and gave me the greatest confidence. He was the only teacher who believed in me and made me feel like I could do anything I set my heart on. I had him for 2 classes, biology and anatomy and he made class so interesting. I owe him my success in school. I'm going to miss him so much. I wish I had the chance to say goodbye. I give my greatest condolences to his family and friends. The world lost an incredible human being, but he will live on through the successes and inspirations of the lives he's made an impact on.*

“ *My condolences to the Judge family. I met Mr Judge in 1992 at Arlington High School and he was a blessing to me during a time in my life when I needed wisdom and guidance. As a teacher, he made learning fun and as a friend he was always willing to lend an ear. Although I lost touch over the last few years I still reflect on much of his experance and advice he has shares with me. He will surely be missed in the world. He was a special man with a big heart. I am greatful that I was able to know him.*

“ To Narda and Family,
Sorry for your loss. I had the privilege of working with David for the last 5 years. He was my friend and there will not be a day that I won't miss seeing him. David was our "go to guy" at school. There were dozens of times that I and other faculty members went to David for help and advice. If we were asked a question that we could not answer, we sought out David and got the answer from him. I will miss his e-mails that he sent out, because his linguistic skills were unmatched by anyone else. David was a great teacher, and an even greater friend. I will miss him more than words can express.

David had high regard for you, too, Steve. I look forward to meeting you at his memorial on Sept. 7. I know how it is difficult to get past expecting David to be just a room or e-mail away. I will enjoy hearing more "David stories". Linda and Sheri have called and told me some. They make me smile and laugh -- we had so many good and funny experiences with him. Narda

I had him as a teacher freshmen year and I made sure to always visit his room during my sophomore year . Now going into my junior year, I will miss him greatly.
